

# Living Jumbo Industry

\_\_\_\_\_ **S.r.l.**  
**Big Bags Manufacturer**

**OUR CUSTOMER'S SUCCESS IS OUR SUCCESS**

## Why LIVINGJUMBO INDUSTRY ?

**Because we are fully convinced that our best shareholder is the CUSTOMER.**

**This is why we offer:**

- **Best quality of the raw material, materials and finished products;**
- **JIT deliveries (“just-in-time”) to help our customers keep a minimum or zero level of stocks, by respecting the traceability system for our products;**
- **Assistance in view of finding the best solutions for the creation and maintenance of a successful partnership;**
- **Flexibility in execution depending on the necessities;**
- **Permanent concern for the development through implementation of Management Systems for Quality ISO 9001, Environment ISO 14001 and Safety of Food Products HACCP-ISO22000, purchasing of advanced technologies and continuous improvement of the personnel.**

**Because we always fulfill and even exceed Your expectations when it comes to the packaging solutions you inquire from us.**

## I. BIG BAGS

### Constructive types

- ✓ 1, 2 or 4 loops (sustaining handles);
- ✓ For the 1 or 2 loop bags, the loops are formed from the same fabric as for the body of the bag (see product codes: *1LJI\_A and B, 2LJI\_A and B*);
- ✓ For the big bags with 4 loops (see product codes : *4LJI\_A ...4LJI\_F, QLJI\_A and QLJI\_B*) the lifting loops or belts (for the sustaining of the bags and for handling) are made separately, by weaving, out of polypropylene tapes (see product codes : *7LJI\_40 up to la 7LJI\_70*).

### Fabric

- ✓ Fabric made by weaving from polypropylene granules with **UV** stabilization;
- ✓ Circular or flat, depending on the type of big bags (see product codes : *6LJI\_1000 up to 6LJI\_4000*).

### Additional

- ✓ Fabric can be laminated – depending on the product to be packed in;
- ✓ Possibility to insert (inside the outer PP bags) polyethylene liners to avoid the leaking/ loosing of the packed product.

### Special characteristics

- ✓ Flexographic printing on the body of the bag – with the logo of client;
- ✓ Sewing with dustproof yarn to avoid the leaking/ loosing of the packed product;
- ✓ Based on customer's request, big bags are provided with label containing instructions for handling, storing, transportation and document pocket.

## **SWL (SWL=Safe Working Load)**

- **250 – 2000 kg**

## **SF (SF =Safety Factor)**

- **5:1 – for packing non-dangerous materials - Single-Trip use**
- **6:1 – for packing non-dangerous materials - Multi-Trip use**
- **UN – for packing dangerous materials**

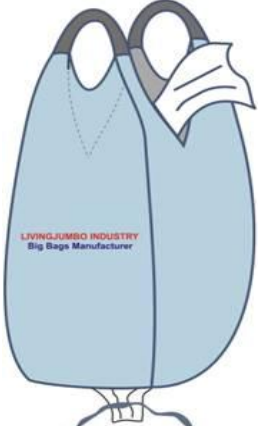

## **Fields of utilization**

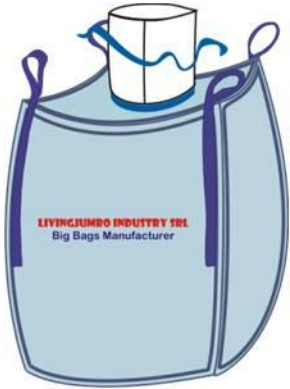

- **Agriculture ( seeds, cereals, animal feed);**
- **Food industry ( powder and granular products – salt, sugar, rice, milk powder, etc);**
- **Chemical industry (soda, urea, ammonium nitrate, fertilizers, etc.);**
- **Construction materials (sand, lime, cement, gravel, rubble, etc.);**
- **The wood processing industry (waste wood, sawdust, pellets, lighters);**
- **Collection, recovery and recycling (ferrous, non ferrous, wood, plastic, PVC, PET, PE, PP, etc.)**

## II. OTHER PRODUCTS

- ❖ PP THREAD 1000 – 4500 DEN (see product code: 5LJI\_1000 to 5LJI\_4500);
- ❖ PP FABRIC 1000 – 4000 mm/ 95 – 200 gr (see product code: 6LJI\_1000 to 6LJI\_4000);
- ❖ PP BELT 40 – 70 mm (see product code: 7LJI\_40 to 7LJI\_70);
- ❖ PP YARN 4500 DEN (vezi cod produs: 8LJI\_4500);
- ❖ PP CORD 10 – 30 mm (see product code: 9LJI\_10 to 9LJI\_30);
- ❖ PP ROPE 3-4 mm (see product code: 10LJI\_4500).

Product Categories	Characteristics	Code	Model	Finished product
One loop Big Bags ➤ PE Innerliner	Flat bottom	1LJI_A		
One loop Big Bags ➤ PE Innerliner	Discharging spout	1LJI_B		

Product Categories	Characteristics	Code	Model	Finished product
Two loop Big Bags ➤ PE Innerliner	Flat bottom	2LJI_A
